Washington DC - Lanny J. Davis, attorney for Dmytro Firtash in U.S., denies *any factual basis whatsoever* for Ukrainian sanctions regarding alleged titanium products sales

Cites ironic fact, *not disclosed by Ukraine government*, that its own state-owned company is selling titanium raw materials to Russian company, VSMPO-AVISMA, the world's largest titanium producer

Lanny J. Davis issued a global media statement, calling on all media to correct the record based on false accusations by the Ukrainian government on the Firtash sanctions:

"On June 18, 2021, the Ukraine Secretary of the National Security and Defense Council, announced sanctions against Dmytro Firtash based on alleged sales of titanium products by Mr. Firtash to 'Russian military enterprises.' The basis of these sanctions is utterly false. Mr. Firtash has made no such sales.

Moreover, not only did the Ukrainian government get its facts wrong, but it failed to disclose an important and ironic fact when it announced its baseless sanctions against Mr. Firtash: Specifically, Ukraine's own state-owned ilmenite mining company, called United Mining Chemical Company (UMCC), is currently supplying titanium raw materials to VSMPO-AVISMA, the world's largest titanium producer, a practice which Mr. Firtash halted in 2014.

In other words, the Ukrainian government has sanctioned Mr. Firtash for allegedly selling titanium products to Russian military enterprises, when he has never done so, and yet failed to disclose that it is currently selling titanium raw materials to the Russian company, VSMPO-AVISMA, the largest titanium producer in the world.

DISSEMINATED BY DAVIS, GOLDBERG & GALPER PLLC, A REGISTERED FOREIGN AGENT, ON BEHALF OF DMITRY FIRTASH. MORE INFORMATION IS ON FILE WITH THE DEPT OF JUSTICE, WASHINGTON DC.
